

FortiFlora®

Medical Indications:

FortiFlora is recommended as a probiotic supplement to help with the following:

- Diarrhea associated with microflora imbalance
- Acute enteritis
- Diarrhea associated with stress, antibiotic therapy, and diet change
- Poor fecal quality in puppies
- To promote a strong immune system
- Flatulence
- To enhance palatability

Medical Contraindications:

- Severely immune compromised dogs

Gastrointestinal Health:

- Probiotic supplement for the dietary management of puppies and adult dogs with diarrhea
- Contains a probiotic proven to promote normal intestinal microflora
- Proprietary microencapsulation process for enhanced stability
- Contains a guaranteed level of viable microorganisms
- Increases levels of the beneficial bacteria *Bifidobacteria* and *Lactobacilli* in dogs
- When used in combination with metronidazole, diarrhea in dogs is shown to improve faster than with metronidazole alone
- Helps reduce flatulence in dogs

Immune Health:

- Promotes a strong immune system at both the local and systemic levels
- Contains antioxidant vitamins C and E
- Promotes increased fecal IgA levels in adult dogs

General Health:

- Shown to be safe for use in growing and adult dogs
- Easy to feed
- Enhances palatability
